PRESS RELEASE

One Week to Go: Green ASC VET Final Conference at the European Parliament

Only seven days remain until the Final Conference of the Green ASC VET project, which will take place on 29 September 2026 at the European Parliament in Brussels.

The event will showcase the most significant achievements of a two-year international partnership dedicated to developing innovative solutions for more inclusive vocational education and employment opportunities for autistic individuals.

Participants will have the opportunity to explore digital learning tools, educational resources, virtual reality materials, 360-degree career exploration videos, and practical recommendations developed throughout the project.

The conference will bring together representatives of European institutions, education and employment experts, employers, civil society organisations, and autistic individuals from across Europe.

A special focus will be placed on sharing good practices, discussing future opportunities, and ensuring the sustainable use of project results beyond the lifetime of the project.

The Green ASC VET consortium warmly welcomes all stakeholders interested in inclusive education, employment, and social innovation.
